

Turbine cubs of Wyoming LLC is changing their name!

Sunday, 10 August 2008 06:30

Many of our customers have all ready been informed that we turbine cubs of wyoming are changing our company name to Backcountry SUPER CUBS. This move is to remove any questions on why we were called Turbine Cubs. At one time we were looking to buy an engine company but due to many issues we decided not to pursue it. So to make a very long story short we came up with the new name of Backcountry Super Cubs. We will be still supporting our customers from Smith Cub Avation, Turbine Cubs and now Backcountry Super Cubs.
